NEW IUL Express Electronic Submission Training Videos

Recently, we began allowing you to submit IUL Express paper applications electronically using one of our accepted electronic signature methods and our paper application submission via email process.

To help you transition to this new electronic submission process we created two new producer training videos. Please note, these videos show the process using DocuSign as the electronic signature method since it is the most widely used.

The first producer training video walks you through [IUL Express using Easy Solve and the DocuSign process](#). The second video shows you the [DocuSign process only](#).

As a reminder, below are all the accepted electronic signature methods and [Paper Application Submission via Email guidelines](#).

Accepted Electronic Signature Methods for New Business

- iGo
- DocuSign
- Adobe eSign (formerly EchoSign) – desktop version only, mobile version is not approved
- OneSpan (formerly Esign Life or Silanis)
- Alpha Trust
- PSG

Email Submission of Applications and Requirements

Paper applications and outstanding requirements can be submitted via email. Please refer to our [Paper Application Submission via Email process guidelines flyer](#) for details on submitting electronically.

If you have questions, please contact your Sales Director.
